

Biographical Sketches

Linda Lybert
Healthcare Surfaces Expert
Healthcare Surface Consulting

Linda is the President and Owner of Healthcare Surface Consulting and the Co-Founder of the Healthcare Surfaces Summit. She has enjoyed a 17 year career, passionately crusading to awaken, inspire and educate people on the impact of surfaces in the spread of hospital acquired infections. Her mission is to empower key stake holders to take a stand for using the proper surfaces and be actively involved in the selection process.

As a former member of the FGI Guidelines for Design and Construction of Healthcare Facilities Revision Committee she was instrumental in the creation of the 2006 ideal surface characteristics guideline. As an active member of ASHE (American Society of Healthcare Engineering) she was appointed and served on the Planning Design and Construction Committee and worked on the creation of the recently released ASHE Health Care Sub Contractor program. She is a published author of articles about surfaces and the spread of infection in healthcare, and is currently completing her soon to be released book "Seven Critical Aspects of Surface Selection".

Linda recently co-founded the Healthcare Surfaces Summit that brings together a multidisciplinary group of experts and thought leaders for a cutting edge collaboration that will address the complex and critical role of surfaces in the spread of healthcare acquired infections.
