

## Global Loss Prevention Healthcare Division

---

### **Emily Rhinehart, RN, MPH, CIC, CPHQ** **Vice President and Division Manager**

Emily Rhinehart, Vice President and Division Manager for Global Loss Prevention, Healthcare Division (GLP HD), has over 25 years of diverse healthcare experience. As a consultant and manager, she has developed and facilitated a wide variety of products and services for the healthcare market including risk and quality management assessments and tools, Best Practice Assessments, focused assessments of various clinical areas, and many publications and educational programs for Lexington Healthcare clients.

Emily's main clinical focus has been in the prevention of healthcare-associated infections, providing consultation and education throughout the US as well as in South and Central America, Asia and Europe. She has published many journal articles and book chapters addressing topics on infection control and epidemiology, risk management and patient safety. She is a principal author for the 2006 CDC guideline, Management of Multidrug-resistant Organisms in Healthcare Settings and the 2007 publication, Guideline for Isolation in Healthcare Settings. She is also the co-author of the book, Infection Control in Home Care and Hospice (2<sup>nd</sup> Edition 2005).

Ms. Rhinehart holds a Bachelor of Science in Nursing degree and a Masters in Public Health with a concentration in Epidemiology. She is certified in healthcare quality (CPHQ) and Infection Control (CIC). She has been part of the Chartis organization since 1993 and the Division Manager for GLP Healthcare since 2005.
