</tr>
</tbody>
</table>

Major Vessels and Modifiers

1. Right coronary artery
2. Left anterior descending coronary artery
3. Ramus intermedius - OM1 coronary artery
4. Left circumflex coronary artery
5. Left main coronary artery

Modifiers –
- LC – Left circumflex
- LD – Left anterior descending coronary artery
- RC – Right Coronary artery
- LM – Left main coronary artery
- RI – Ramus Intermedius

Non-STEMI, Non-CTO, Non-Bypass Graft Percutaneous Coronary Interventions

SCAI Presents PCI – New Coding Paradigm (Continued)

The Codes:

- **92920**: Percutaneous transluminal coronary angioplasty; single major coronary artery or branch
- **+92921**: Each additional branch of a major coronary artery (List separately in addition to code for primary procedure)
- **92924**: Percutaneous transluminal coronary atherectomy, with coronary angioplasty when performed; single major coronary artery or branch
- **+92925**: Each additional branch of a major coronary artery (List separately in addition to code for primary procedure)
- **92928**: Percutaneous transcatheter placement of intracoronary stent(s), with coronary angioplasty when performed; single major coronary artery or branch
- **+92929**: Each additional branch of a major coronary artery (List separately in addition to code for primary procedure)
- **92933**: Percutaneous transluminal coronary atherectomy, with intracoronary stent, with coronary angioplasty when performed; single major coronary artery or branch
- **+92934**: Each additional branch of a major coronary artery (List separately in addition to code for primary procedure)
- **92937**: Percutaneous transluminal revascularization of or through coronary artery bypass graft (internal mammary, free arterial, venous), any combination of intracoronary stent, atherectomy and angioplasty, including distal protection when performed; single vessel
- **+92938**: Each additional branch subtended by the bypass graft (List separately in addition to code for primary procedure)
- **92941**: Percutaneous transluminal revascularization of acute total/subtotal occlusion during acute myocardial infarction, coronary artery or coronary artery bypass graft, any combination of intracoronary stent, atherectomy and angioplasty, including aspiration thrombectomy when performed, single vessel
- **92943**: Percutaneous transluminal revascularization of chronic total occlusion, coronary artery, coronary artery branch, or coronary artery bypass graft, any combination of intracoronary stent, atherectomy and angioplasty; single vessel
- **+92944**: Each additional coronary artery, coronary artery branch, or bypass graft (List separately in addition to code for primary procedure)
